

# Case Study: Identity Theft Prevention

**Problem: Securing Financial Records**

**Clients: Auto Dealerships Nationwide**

## Goals:

- Protect personal financial information
- Hide thousands of unsightly file folders
- Provide easy access to information
- Secure multiple storage units with a simple solution

## Solution:

- One dealership chose to create a secure area out of a walk-in storage area (*center photo*)
- Another dealership installed Rollok doors along a continuous run over 12 feet wide (*bottom photo*)

## Benefits:

- Access to storage area is now controlled
- Compliance with Gramm-Leach-Bliley Act attained
- Multiple units often can be secured with a single tambour door
- Quick and easy installation on existing shelving means folders do not have to be moved or refiled

**Quote:** "Our client selected Rollok due to the clean appearance, ease of use without bending or reaching, as well as the space-efficient locking mechanism."
